about me

Under the artist name , Monks5.5 , I'm a final-year Fine Arts student at LASALLE College of the Arts. Working primarily in sculpture and installation. Professionally, I've been a **panelist for 'grounding the future'** and tried **public mural as a collaboration with KKH**. Aside from the jobs listed, I've also had a range of part times such as retail , f&b and event crew that lasted years. These jobs were able to hone my communication and multitasking skills. Working in events such as F1, Ice magic . World Aquatic Championship has allowed me to stay professional in a high paced environment while collaborating with diverse sorts.
