Introduction

I am an honest and optimistic person who can adapt to new environments quickly. I am also actively learning any skills and techniques related to my job. Maybe I will have problems in communication, but I will find and solve them in my own way. I am keen on photography and movies in my daily life. Photography allows me to get close to nature and let me discover the beauty that is not noticed in life. And excellent movies can let me see different spiritual connotations.

Art Projects and Experiences

Personal Art Project: Teapot Series

Researching and practicing the cross-disciplinary integration of culture and art.

Combining traditional and contemporary art with teapots as a medium. Delved into the connection between everyday life and art, presenting storytelling and depth through my artworks.

Presented artworks themed on "Life and Emotions," - Garnered positive feedback from audience.

Demonstrated versatility through using diverse materials and forms to convey profound societal topics (real-life scenarios).
