ABOUT

Interior design graduate with experience in both interior and architectural practices in Singapore. Skilled in space planning, material selection, and detailed drawing production, with the ability to support design development from concept to documentation. Proficient in AutoCAD, SketchUp, and 3D visualisation tools. Experienced in site coordination and working with multidisciplinary teams to support project delivery.

EXPERIENCE

Ascend Design | Singapore | Jun 2023–Aug 2024

- Developed concept mood boards and design proposals based on client requirements and project themes.
- Produced 3D renderings and visualizations to communicate spatial atmosphere and design intent.
- Conducted site measurements and inspections, identifying spatial and structural considerations affecting design implementation.
- Prepared detailed drawings to support design development and construction documentation.
- Assisted with material sourcing and procurement, coordinating delivery schedules with suppliers.
- Monitored construction progress on site, ensuring work aligned with design drawings and project timelines.

Lab Architects | Singapore | May 2025 – Aug 2025

- Assisted in the interior design development of bathrooms, kitchens, and bedrooms for landed residential projects.
 - Produced detail drawings, material selections, and renderings to support design development.
 - Used Adobe Photoshop to enhance presentation drawings for client proposals.
 - Supported the architectural team in reviewing drawing sets and verifying document consistency across project files.
