NANTANIE

Interior Design Student

HERE'S MY STORY:

I have a strong passion for spatial design and sustainability, with a background in Spatial Design from Nanyang Polytechnic and currently pursuing my second year of degree at LASALLE College of the Arts. My journey has been one of perseverance, from overcoming challenges in my education to achieving a GPA of 3.72 graduating diploma and making it to the Director's List twice. I have gained valuable experience through competitions such as the American Standard Design Award Design Competition, SUTD x SIA Upcycling Challenge, and Roca One Design Challenge. Additionally, my six-month internship at M+ Design Associates, where I was invited to continue as a part-time employee, has enriched my skills in the industry. Beyond design, I have a deep interest in photography, capturing moments that inspire me.
