

KHINE ZIN HTUN

INTERIOR DESIGNER

ABOUT ME

Strongly believing that every design should serve a clear purpose while responding to real needs, I focus on shaping spatial experiences that influence how people feel within an environment. I am drawn to the subtle, often unseen emotional qualities of space, where material, proportion, and atmosphere work together to create meaning. My intention is to craft environments that evoke calm, serenity, and quiet connection, allowing users to experience space in a thoughtful and immersive way.
