• Bachelor in Computer Engineering

2022-2023 | Ho Chi Minh University of Technology

LANGUAGE

- English (Fluently)
- Vietnamese (First Language)

SOFTWARE

Adobe Photoshop:

- I have good skills of using Photoshop to create mood boards, make the presentation board and do the drawing renders.

AutoCad:

- I am skillful in managing layers, line weight and blocks to create professional drawings.
- I have great skills to do the technical drawings in good quality with high speed.

Sketchup:

- I have proficient skills in doing interior design as well as architectural space.
- I have advanced skills of modelling and using several plugins to make curve and organic shapes.

3dsMax:

- I have been continuously using this software and acknowledge how to do modelling of furniture and interior scenes.

Enscape/ V-ray/ Chaos Vantage/D5/ Corona

- I am skillful in making realistic material and manage lighting in these softwares to have a nice render quality.

SOFT SKILLS

- Presentation skill: Clearly communicates design ideas through confident verbal delivery and strong visual storytelling.
- Model making with good workmanship: Creates precise, well-crafted models that reflect detail, scale, and concept clarity.
- Conceptual Sketching: Expresses design ideas quickly through clear, dynamic, and exploratory hand sketches.
- Research: Conducts insightful research to inform design direction, context, and user needs.
- Critical and Analytical Thinking: Identifies problems, evaluates options, and proposes thoughtful, strategic design solutions.
