

Julienne Jo Boquiren

industrial. product. service. design researcher.

Filipino-born and raised in Singapore, Julienne is a multidisciplinary designer with a strong interest in modular systems, shared living, and emotionally conscious design. Her practice combines research, prototyping, and visual storytelling to explore how design can adapt alongside evolving human routines, relationships, and behaviours. Through a balance of systems thinking and material exploration, she is interested in creating thoughtful experiences that encourage adaptability, longevity, and meaningful interaction within everyday life.
