## PRODUCT DESIGNER

### Profile

---

I'm a product design student who enjoys blending creativity with functionality to create thoughtful, user-centered and sustainable solutions. I thrive in team environments and am drawn to design that considers both environmental and social impact, with the aim of creating work that is meaningful and responsible.

### Work Experience

---

#### Placemaking Intern | May- July 2025

LOPELAB

Led **stakeholder outreach** through calls, emails, and notices for a large-scale placemaking project. Supported **design ideation and research**, translating site recce and area mapping into presentation-ready proposals. Coordinated **logistics and on-site execution, sourcing** and assisting with **transport and furniture installation**. Compiled a database of local makers, creators and sustainable initiatives.

#### Mural Painter | Nov 2025- Present

Mural Lingo

Executed on-site painting as a freelance mural painter for **large-scale public murals**; contributed to **three public art installations** across Singapore as part of a professional painting team.

#### Intern | May- July 2024

Sat:Suma Skin

Social media handling, **content creation**, assistance in the **preparation and production** of soaps and other items, assistance during **workshops** and **inventory and supply management**.

#### Exhibition Designer | 2025

Lasalle College of the Arts

Involved in the **Graphics and Visuals team** for the exhibition *Matter Matters Vol. II* at the Brother Joseph McNally Gallery, as well as *Future Form* showcased during **Singapore Design Week 2025**.
