

A visual storyteller working through Photography and Video

As a fashion media major, I am deeply interested in photography and visual storytelling.

Focusing on fashion photography and analog film, the emotions and identities of the younger generation are explored with cinematic images.

Through practical experience in Studio 03, I learned the skills of lighting, composition, visual direction, and other filming,

I want to express fashion as an emotional narrative that connects people and culture, not just a style.

Personal Information

Name	Jeong sehyeok
Birth	2003. 01. 06
