roankristofer.design

I am currently pursuing a degree in Visual Communication and Experience Design at LASALLE College of the Arts. I have strong skills in illustration, with a particular focus on branding, and I am proficient in industry-standard software such as Adobe Photoshop and Illustrator. I frequently create designs for posters, branding materials, and product concepts.

I am also developing my abilities in other areas such as video production and photography. expanding my visual storytelling and layout design capabilities.

Beyond technical skills, I bring a range of valuable personal attributes to my work. I am a fast learner, work efficiently under pressure, and collaborate well in team settings. As a designer, I take pride in integrating my unique style and concepts into each project, always aiming to approach challenges with originality and a fresh creative perspective.

Proficient in Adobe Creative Suite with a focus on branding and visual storytelling.

Experienced in developing cohesive brand identities and creating design assets across digital and print platforms, ensuring consistency and strong visual impact.
