EDUCATION

2024 - 2026

UAS | LASALLE

BA(Hons) in Design for Social Futures

2019 - 2022

Temasek Polytechnic

Diploma in Product and Industrial Design

SKILLS

- Research & Analysis

Trend Analysis, Qualitative Research

- Design & Strategy

Speculative Design, Systems Thinking

- Communication

Community Engagements, Zine Publication

- Technical Skills

3D Modelling, 3D Printing, Rhino, Figma, Illustrator, Photoshop

SUMMARY

I'm eager to collaborate with experienced professionals, share fresh perspectives, and learn how public institutions adapt to long-term challenges. I am particularly interested in how public institutions can integrate human-centred design and systems thinking to create more sustainable, inclusive, and forward-looking policies.

I enjoy synthesizing complex information, engaging diverse stakeholders, and testing hypothesis or solutions, making me a great fit for projects requiring strategic foresight.

WORK EXPERIENCE

Sustainability Intern

NUHS Office of Sustainability (Jul 2025 - Aug 2025)

- Planned and directed an introductory video
- Conducted and recorded interviews
- Edited and animated the video (Vox-style)

Part-Time Educator

Tinkermind (Oct 2021 - Jun 2025)

- Conducted and assisted STEM classes in NLB
- Curated content for classes
- Moderated online livestream classes

Product Design Intern

MIMO Motor (Dec 2024 - Mar 2025)

- User testing of a new bicycle model
- Conceptualised various bicycle rack designs
- Made working prototypes of mechanisms

Operations Intern

Tinkermind (Jun 2021 - Oct 2021)

- Assisted with day-to-day operations
- Developed content and materials
- Assembled and repaired 3D printers
- Supported various outreach events
