

Hello! I am Jeremy Lai

(+65) 93286067

Jeremy_lai2000@hotmail.com

Designer, Singapore

I am fascinated by the dynamic interactions between humans, spaces, and objects, how we navigate environments and experience the world around us. Drawing from my background in product and communication design, I strive to create meaningful and impactful work. I love exploring new ideas and collaborating with others, as every individual brings a unique perspective.

Experiences

Part-time Film Lab Technician

Aug 2024 - Current

End-to-end analogue film processing, from customer intake to final delivery, for ECN-2, C41, and black and white film development. High-resolution scanning and quality checks to guarantee accurate results in terms of colour and exposure levels. Customer consultation services for film choice, shooting techniques, and archiving, while at the same time ensuring lab efficiency.

3D Design Intern / Experience Matters

May - Aug 2025

As a part of the 3D design team, creating spatial concepts and high-fidelity models using 3ds Max and AutoCAD software for conferences and large-scale roadshows. Worked on client projects such as SSG/WSG and Bank of Singapore. Contributed to spatial planning, technical drawing preparation, and site inspection for a smooth transition from design to build.

I Light Singapore 2022 (URA) / Top 3 Student Prize

Sep 2022

Achieved recognition as Top 3 in the student category for a 15-meter hanging light installation. Contributed significantly to contractor liaison and construction site work, converting design concepts into construction ready formats. Assisted with fabrication planning and installation organisation for a large-scale public exhibition piece.

Current Operations Task Force (Covid-19) / MOH & SCDF (NS)

Mar 2022 - Aug 2023

Oversaw daily operations across five case management workstreams, coordinating with transport providers, hospitals, and care facilities to ensure efficient patient allocation under surge conditions. Conducted operational briefings to monitor case statistics and resolve workflow bottlenecks.

Supported the Director of Logistics with executive briefings, cross-unit updates, and internal EDM communications, ensuring accurate information flow and alignment across time-sensitive operations.

Product Design Intern / Studio Norm Design Consultant

Jun - Oct 2020

-Concept proposals and 3D visualisations for hospitality industry clients, including Hotel M, involved creating spatial renders, wall features, and visual floor plans for a refurbishment project for the B1 lounge.

-Motorised trishaw feature installation and two soya bean cart designs for Capella Singapore's main dining area involved taking conceptual ideas and creating detailed 3D presentation models.

Skill Sets

Rhinoceros 3D, Keyshot Render, AutoCAD, 3ds Max, Adobe suite;
Illustrator, Photoshop, Premiere Pro, Lightroom Classic

Contractor Coordination, Workflow Management, Technical Drawing

Education

BA(Hons) Communication Design
Lasalle College of the Arts

Diploma in Product and Industrial Design
Temasek Polytechnic
